

Quality Policy

Safic-Alcan Nordic AB is a distributor of chemical products for industrial customers in the Nordic and the Baltic markets.

We shall constantly develop within our business areas and deliver high quality products and services.

Based on the above we are committed to:

- Meeting customer requirements and expectations on our products and services.
- Continual improvement through regular evaluations regarding performance on quality issues.
- Fulfil our compliance obligations, including applicable legal and other requirements.
- Ensure the development of competence within the organization through education and systematic learning.
